### DETAILED ACTION

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Anthony Azure on 05/11/05.

The application has been amended as follows:

#### In the Specification

On page 15, line 14, delete, "[www.telcrodia.com](http://www.telcrodia.com)", and insert --Telcrodia Technologies website--.

2. The following is an examiner's statement of reasons for allowance: In the claimed invention having a pre-stressed membrane that increases the natural frequency of a thermally tuned filter is not shown or suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Reference US 2001/0028494 in [0055] describe using adjustable parameters such as mechanical stress for their filter, but this not the controlling of the natural frequency of the filter.
